

Bulls, Bulls, Bulls...

Star Lake Ranch Ready Bulls!

Bulls for the October 2006 Ranch Ready Bull Sale

Star Lake has Ranch Ready Bulls with 21st Century Hereford genetics. These bulls will be 18-20 months old when they sell at Star Lake on Oct. 15 in our Ranch Ready Bull Sale.

Why should you use a Ranch Ready Bull? He's designed to sire calves with the traits to add profit potential to commercial and purebred operations.

He's Stouter. These bulls will weigh and have lots of performance, but are moderate in frame score, longer and thicker.

He has a Better Carcass. We've selected for added carcass value and as a result, our IMF and REA are much improved this year.

He has Documentation. We have a wealth of

information on these bulls. Their EPDs are right where we think they need to be, and they have the actual numbers to back them up.

He's Guaranteed. We stand behind each bull. If you have a problem, we'll find out why and make it right.

Our Bulls are 21st Century Herefords – the kind to make you smile when you sell your calves and proud when your neighbors see him in the pasture.

He's the New Hereford. Star Lake 21st Century Hereford Bulls represent a new type of Hereford – the kind to make you smile when you sell your calves, and the kind to make you proud when your neighbors see them in the pasture.

He's the Star Lake Ranch Ready Bull, he's carrying 21st Century Hereford Genetics and he's at the ranch. Stop by anytime to see him and make plans to buy him on October 15.
